BEE Partnership Agreement Signed

Goldplat's South African gold recovery subsidiary, Goldplat Recovery (Pty) Limited (GPL), has signed a binding Memorandum of Agreement (MoA) with its Black Economic Empowerment (BEE) partner, Amabubesi Property Holdings (Pty) Ltd. The effect of the agreement is to increase Amabubesi's interest in GPL from 15% to 26%, as required by the South African BEE legislation which is to be in place before 1 May 2014.

Deal Values GPL at c96% of Goldplat's Market Cap

For the additional 11%, Amabubesi will pay ZAR29.5m (£2.1m), comprising a 10% upfront cash payment on completion, with the remainder financed by a loan from GPL. Amabubesi is to repay the loan using its pro-rata dividends. On our financial forecasts, this loan should be repaid in full before the end of 2014.

The transaction values GPL at ZAR268.2m (£19.2m), £16.3m of which is attributed to Goldplat at its current 85% ownership. This is c96% of the company's current market cap.

As Goldplat's CEO, Russell Lamming, pointed out, considering that GPL contributed less than 50% of the group net profit in the last financial year, "this highlights the inherent value of Goldplat as a whole".

Valuation Methodology Maintained

We maintain our valuation methodology, however, which means that our valuation remains unchanged. This is dominated by 5.0x EV/EBITDA for the recovery business and the £4.8m effective cash position. We value Goldplat at £34.4m, which equates to a 21.0p target price.

Recommendation and Price Target

We maintain our **BUY** recommendation and our share price target of 21p.

Definition of Ratings

VSA Capital Limited uses the following stock rating system to describe its equity recommendations. Investors should carefully read the definitions of all ratings used in each research report. In addition, since the research report contains more complete information concerning the analyst's views, investors should carefully read the entire research report and not infer its contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock or investment fund should depend on individual circumstances and other considerations. VSA Capital Limited's recommendations are defined as follows

BUY: The stock is expected to increase by in excess of 10% in absolute terms over the next twelve months.
HOLD: The price of the stock is expected to move in a range between -10% and +10% in absolute terms over the next twelve months.
SELL: The stock is expected to decrease by in excess of 10% in absolute terms over the next twelve months.

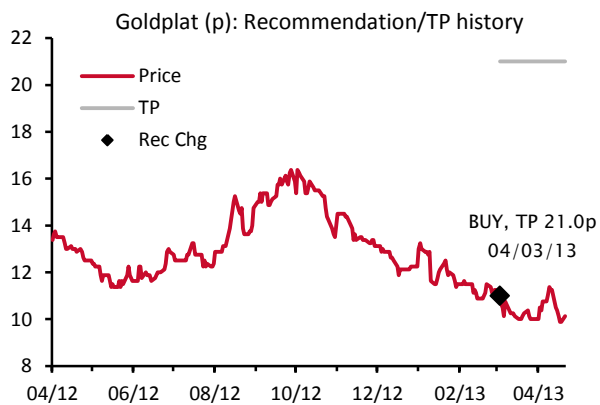

In addition, on occasion, if the stock has the potential to increase by in excess of 10%, but on qualitative grounds rather than quantitative, a Speculative BUY may be used.
